
Six months to AKO,
and the whole
company to activate.
Leland

Licenses are approved. Workflows haven't changed.

Policy and risk. AI policy to standardize ahead of mass adoption.

Identity. Change threatens what people were good at.

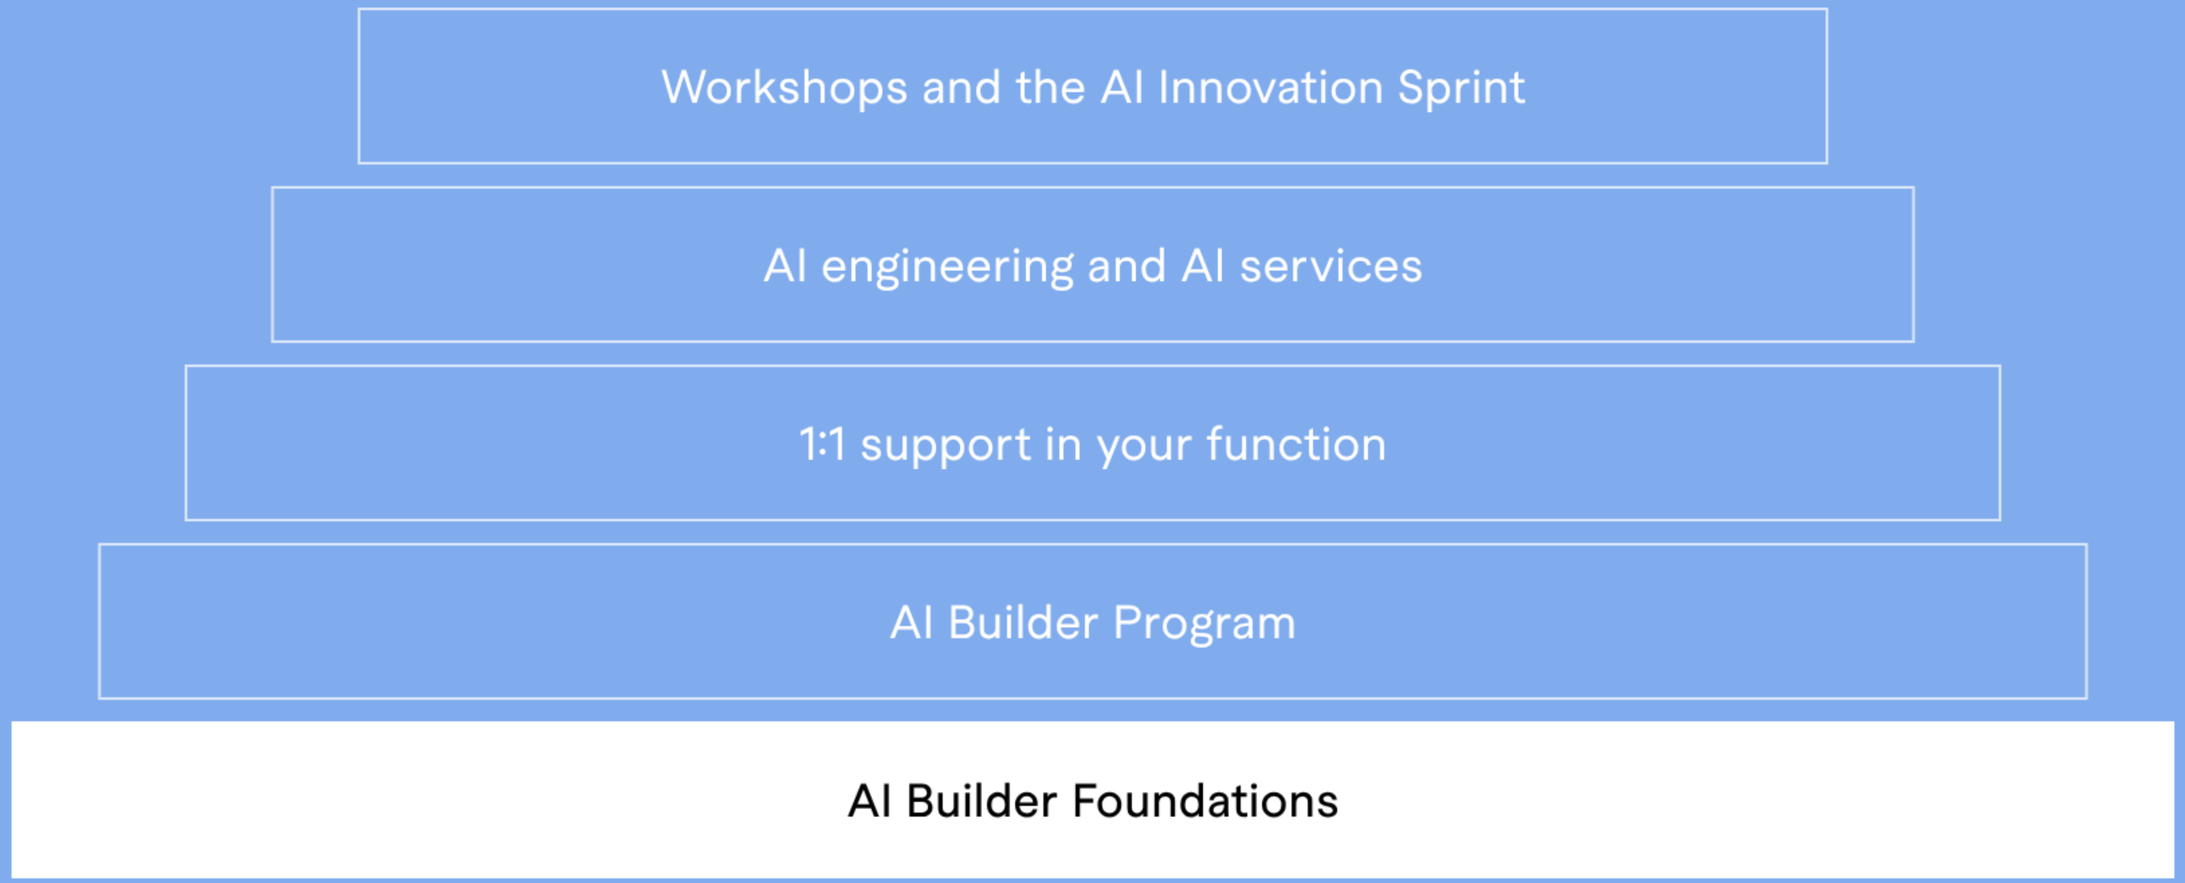

Capacity. Your strongest AI people have day jobs.

Without a partner, champions teach on top of day jobs.

Without a partner	With Leland
Champions teach on top of day jobs	Foundations in October, all ~185
November start runs into the holidays	Waves: SLT, ELT, squads, everyone
No baseline, no board number	Matched experts; baseline, then follow-up

Five layers, each tied to something that changes.

Foundations lands policy and guardrails in the same motion.

All ~185 in October: self-paced, about seven hours, four live sessions.

Your AI policy and data classification taught in the same round.

33

people through the program, the whole team building together

ASU+GSV Summit: partnerships, marketing, programs

Leaders go first, so they lead the change.

SLT and ELT first, 20 leaders, then squads in roadmap order.

Company-wide at AKO.

~8 hours

a week of meeting prep automated in busy season, from a Slack trigger

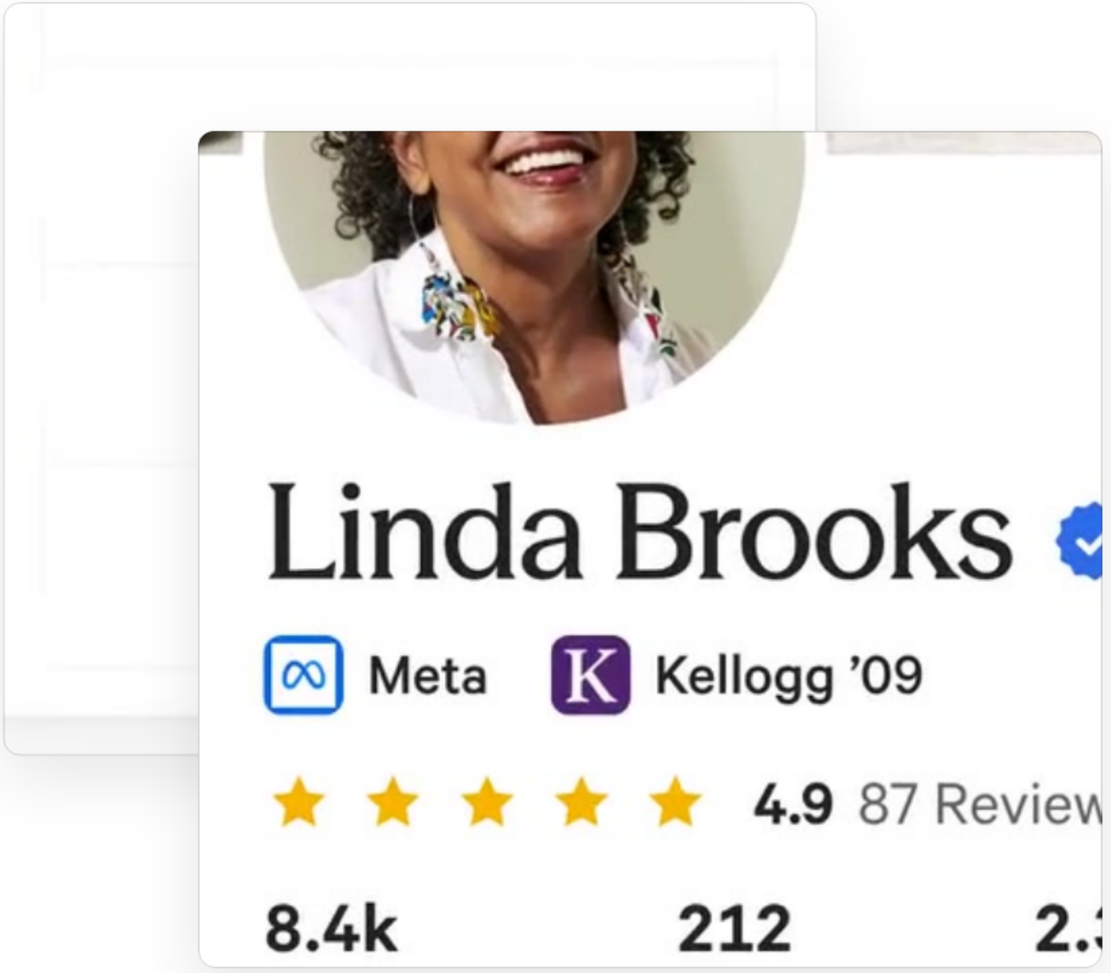

Lucy Baldwin, VP Product, ASU+GSV Summit

A matched expert takes each cluster one level deeper.

One expert per cluster who has run it in that function.

A monthly 1:1 per cluster lead through February, then six months more.

Proposals: 2 hours to 30 minutes. Genny Velazquez, SVP, ASU+GSV

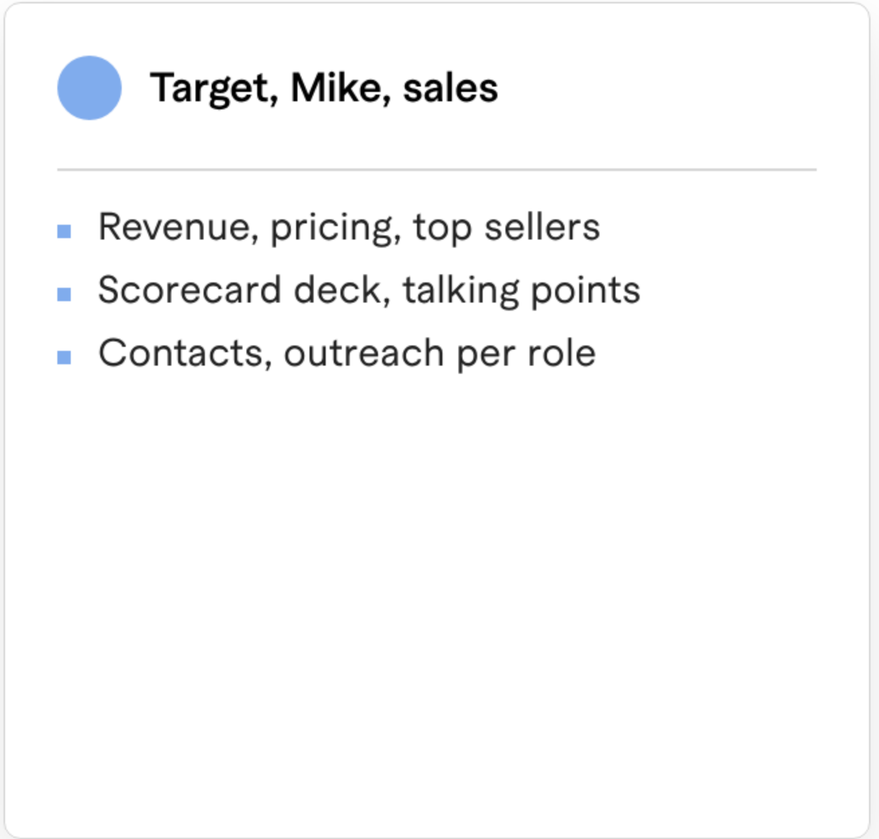

Expert profile and the intro call

Squads walk into AKO with working agents to demo.

Three executive workshops: reclaim time, lead change, prove ROI.

The AI Innovation Sprint ahead of AKO.

About five seconds, not hours. An illustration

Builds don't stall on infrastructure.

A 60-hour bank from kickoff, 10 hours/month, on demand.

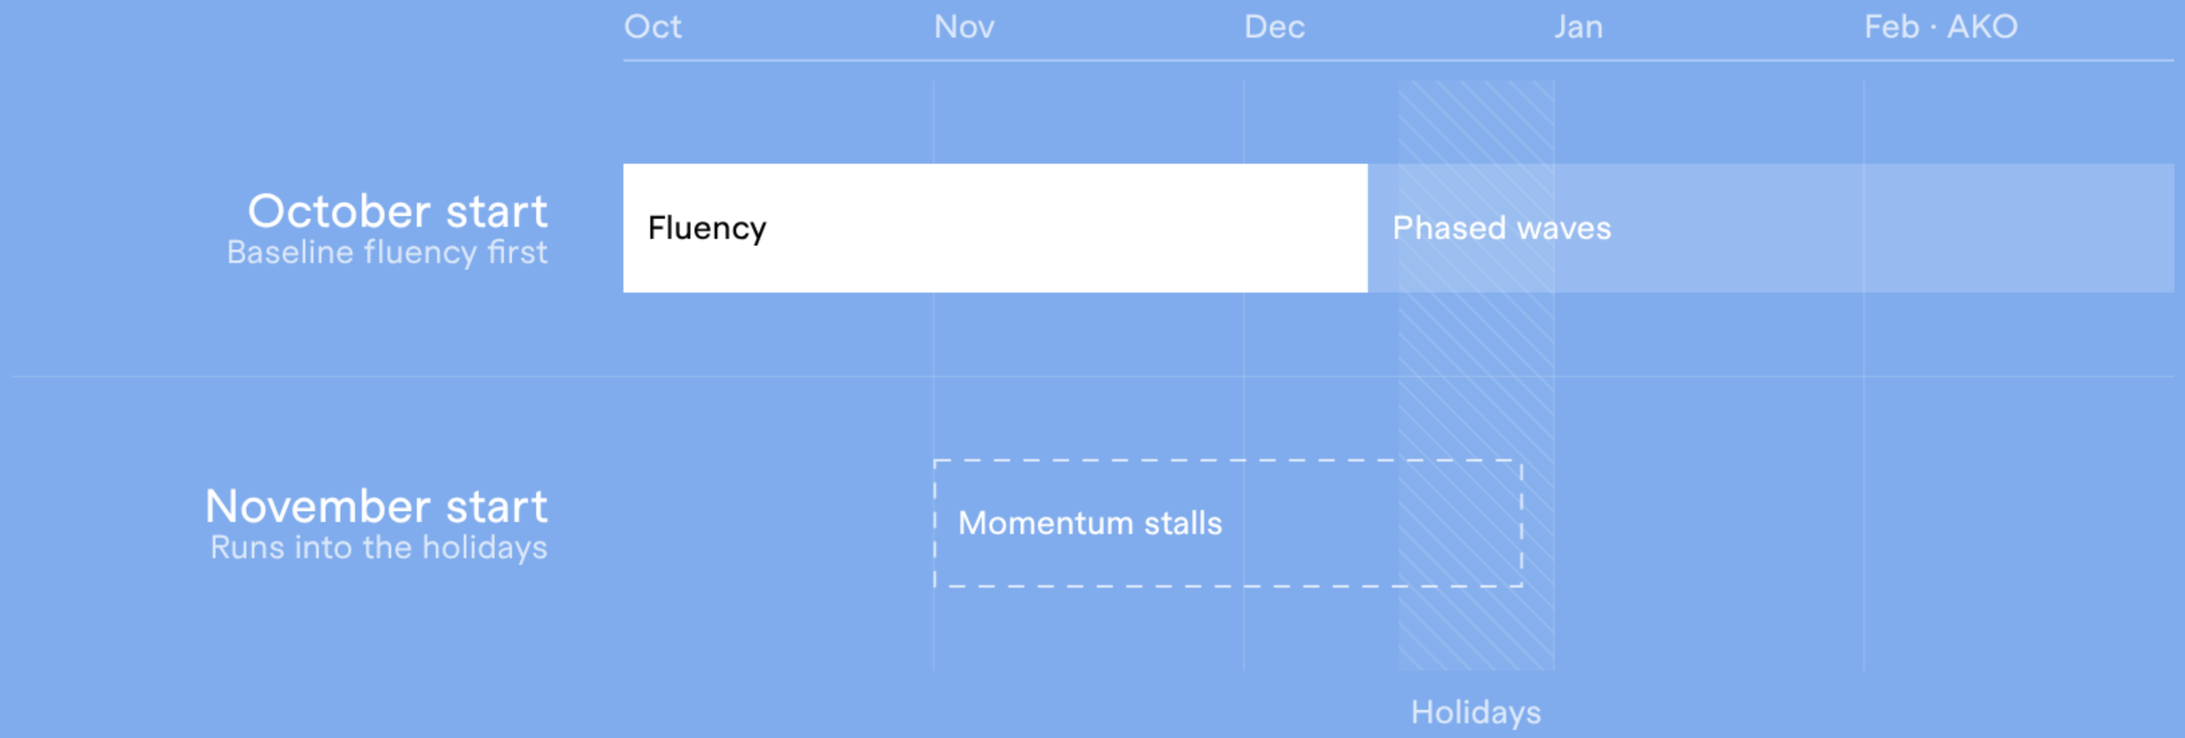

AI engineering or AI leadership support, as the build needs.

1,500+

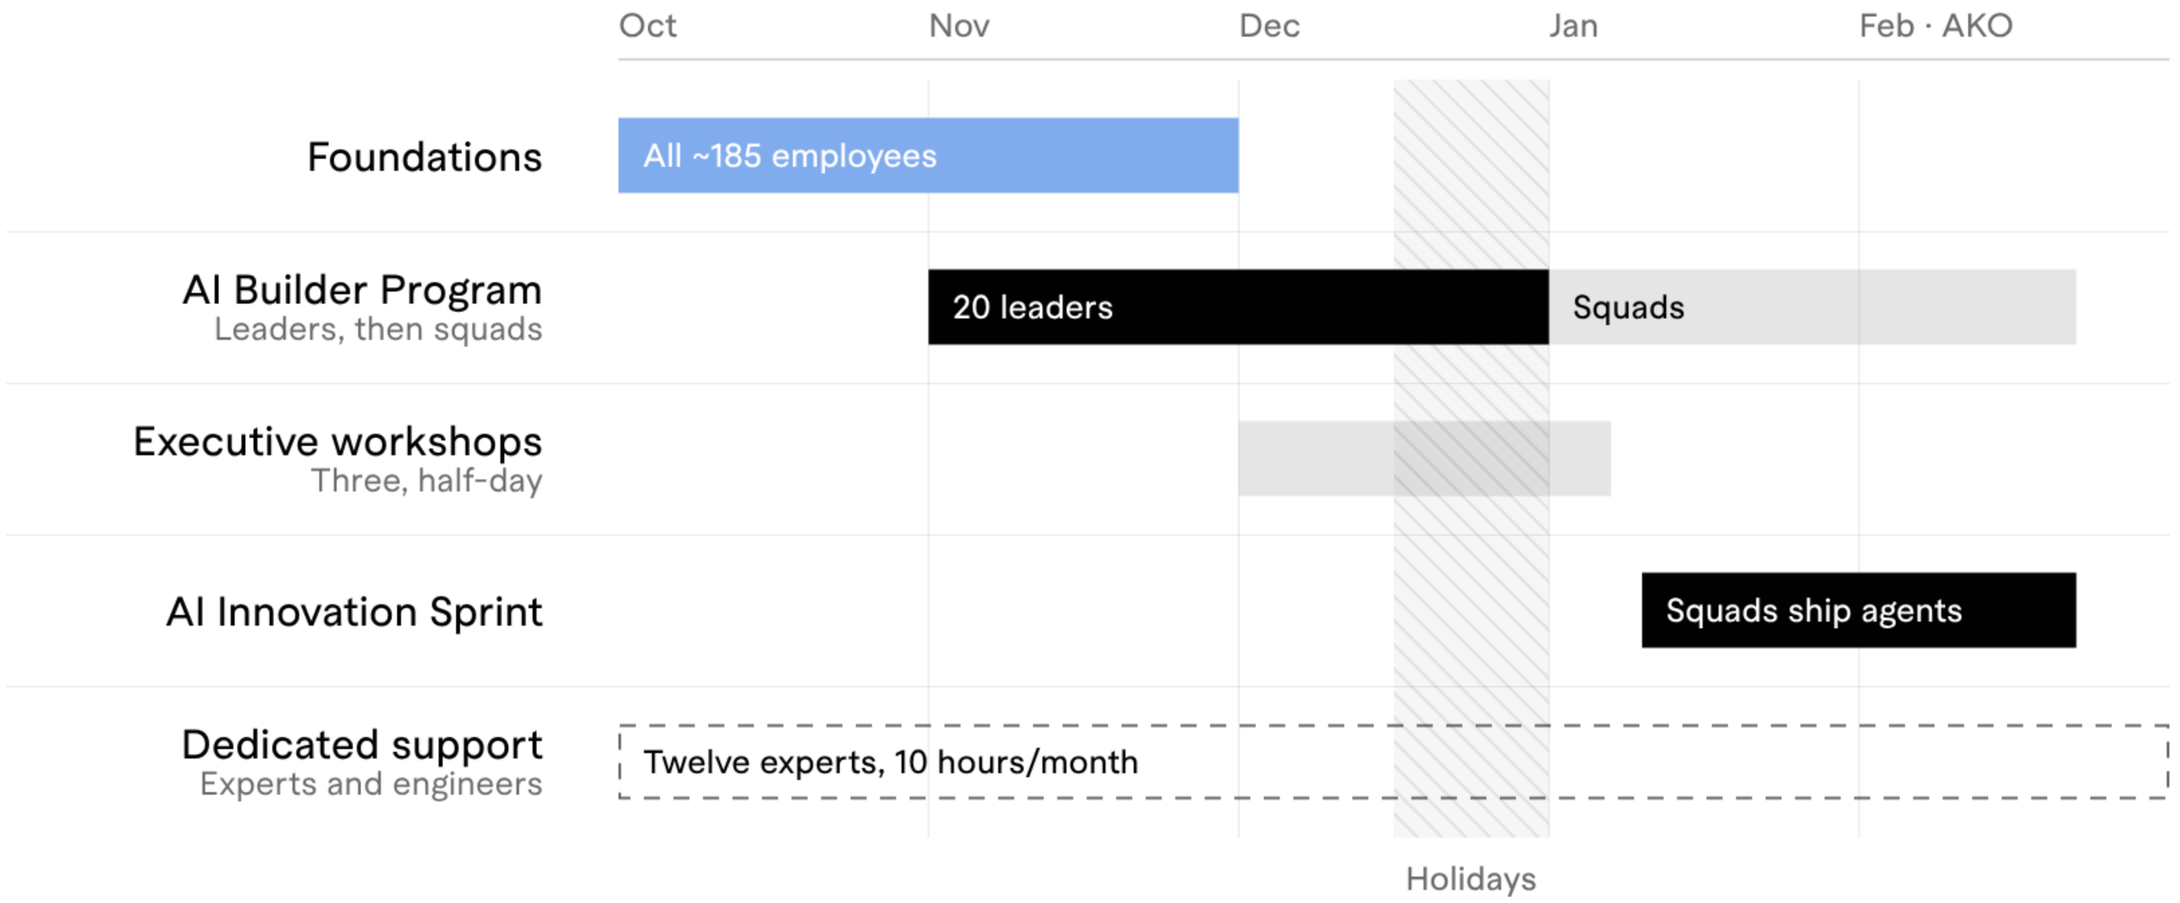

product spec sheets, scoped at 12 months, done in weeks

PlayPower marketing team; Ryan Moats, VP Global Marketing

October, not November: fluency lands before the holidays.

Eighteen months: October 1, 2026 to March 31, 2028.

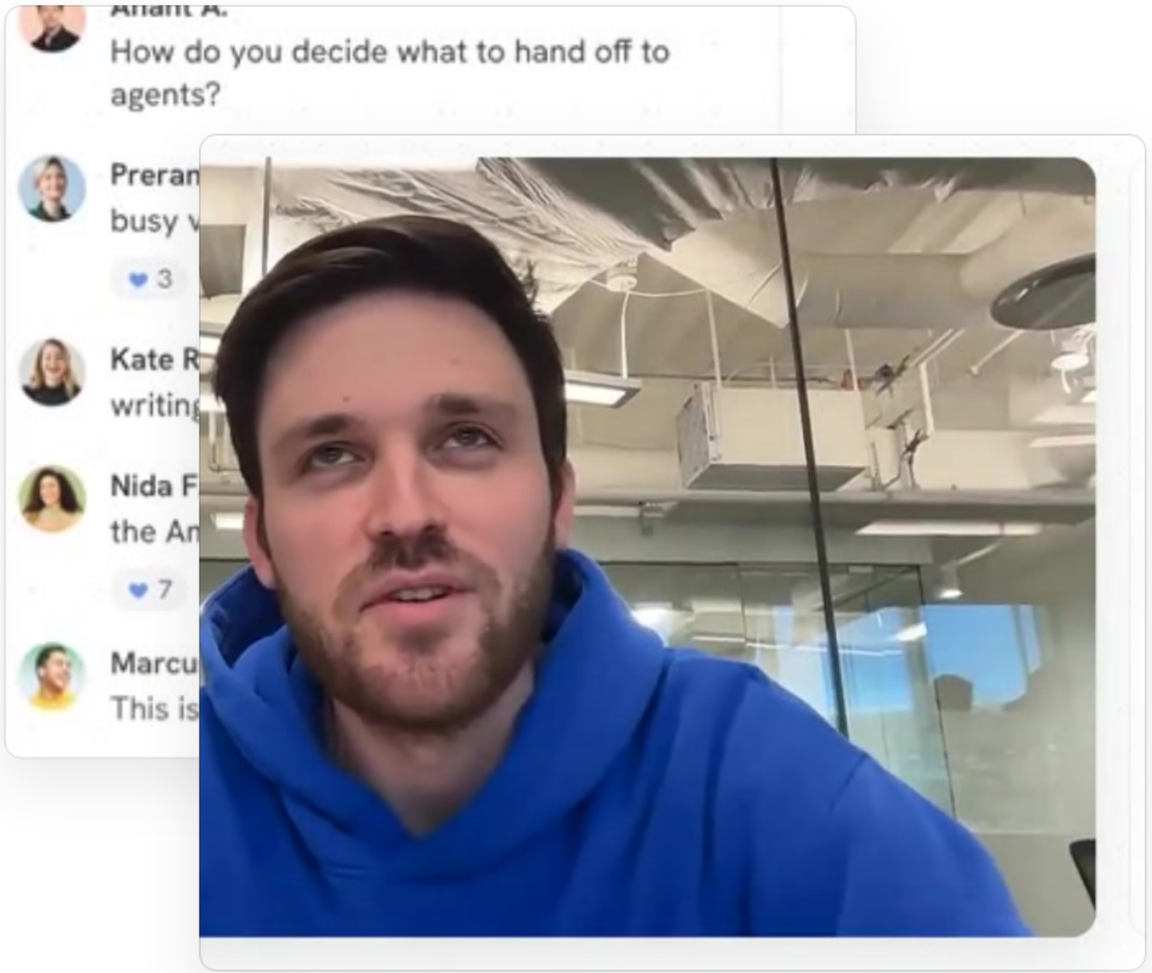

Adoption is work. Here is who does it.

First step: Foundations live sessions, four over two weeks; about seven hours self-paced.

Laura's team: the roster and policy content; leaders add cohort hours.

Leland: sessions, experts, engineers, reporting to the AI Acceleration team.

A live session, chat beside it

Success is a baseline, then a follow-up.

Baseline survey, then follow-up, person by person.

Completion and builds per cohort, reported to the AI Acceleration team.

13,000

Verizon employees supported; chosen by the Governor's Office of Economic Development statewide

Leland: 3,500+ experts, 4.99 rating, 7.5M+ people

The full partnership covers all of it, 24% below list.

Foundations, the full program, 18 months of access for ~200

Three executive workshops and the AI Innovation Sprint

Six cluster experts, monthly 1:1s, a 60-hour bank

$190,000 · list $250,000 · signed by September 18 · kickoff October 1

Or start with a Foundations pilot, credited in full.

Company-wide AI Foundations for all 185, with your policy content

Guardrails designed with a five-person group before launch

Board-ready reporting; Option 1 priced and dated

$55,000 · signed by September 30 · kickoff October 10

Onsite September 9 to 11: scope and the SOW.

Sept 7-8	Sept 9-11	Sept 14-15	Sept 18	Oct 1
Solution refinement with Laura	Onsite with the AIA and leadership team	Finalized SOW	Contracting complete	Kick-off

Five levels, from first build to an orchestration layer.

01	02	03	04	05
Use AI to 10x your impact	Build complex agentic workflows	Create autonomous agents	Build your agent workforce	Design your AI orchestration layer

Experts who have run this inside their own function.
